

BE COUNTED

Wednesday, January 29th, 2025

The annual **Point-In-Time Count** of all persons experiencing homelessness in Franklin, Hampshire, and Berkshire Counties is happening on the evening of January 29th.

This information is critically important because it helps to determine how federal funding for housing assistance is spent.

For a week following January 29th, If you or anyone you know was experiencing homelessness on the night of January 29th, and did not access a shelter bed (not to be confused with a Warming Site) and have not yet been counted, please inquire if you or they are open to being surveyed and return all completed surveys to:
